

Datasheet

PLIP66

Outdoor / Indoor

A highly affordable IP66 aluminum cabinet.

PLIP-66 is made from aluminium plates, designed to provide long-lasting protection for installations in harsh environments. The cabinet type can just as well be mounted inside as outside. Aluminum is used in every detail except the locker, and ensures a long lifetime for the cabinet. The aluminium plates are alloy EN 3003.

Standard design

Material: The cabinets are made of aluminum sheets and profiles in a seawater-resistant alloy.

IP rating: IP66.

Corner joins: Fully welded.

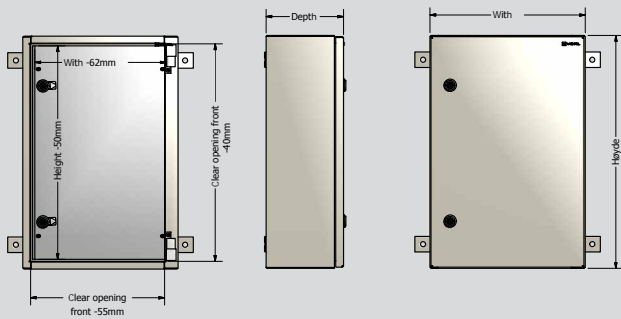

Painting and Colors: Polyester powder coating, standard is RAL 7032, other colors on request.

Design and equipment delivered to order

- Choice of exterior and interior colors according to specification.
- Windows in doors and panels
- Recesses for instruments and switches in doors and cupboards

- Other locks, keys and fixed handles
- Earthing rails, fuse holder and form holder
- Mounting rails, mounting plates and fastening

MEASUREMENTS AND DIMENSIONS

Standard skapstørrelser

Bredde: B	Høyde: H	Dybde: D
400 mm	400 mm	200 mm
400 mm	400 mm	250 mm
400 mm	600 mm	200 mm
400 mm	600 mm	250 mm
600 mm	800 mm	200 mm
600 mm	800 mm	250 mm

PLIP can be tailormade to spesification :

400 - 600 mm	400 - 800 mm	150 - 300 mm
--------------	--------------	--------------

Areas of use

PLIP is often used for simple electrical installations. The high IP rating and the quality of the aluminum and paint finish make the cabinet well suited for installation in the harshest environments.
